Web Designer / Developer Internship Position

Plethora Design (<http://www.plethoradesign.com>), an award-winning Washington DC area web design firm in business since 2003. We are looking for talented web designers and developers. Interested candidates should have a great eye for web design and/or good programming skills, good communication skills, attention to detail and a positive attitude. You will be guided by a seasoned professional and there will be room to learn and grow.

Terrific, collaborative working environment with substantial room for advancement within the company. Office is located in Dulles/Sterling area, near AOL headquarters, Equinix, Raytheon, etc.

Position Responsibilities

These are not all required. The primary need is for Joomla and Drupal design and programming. Most of our projects involve Joomla, and more and more involve Drupal. WordPress skills are also valuable, but to a lesser extent.

- Familiarity with web design principles and best practices (CSS3, W3C standards, etc)
- Familiarity with Photoshop and Dreamweaver.
- Experience with Joomla CMS: maintaining, installing, configuring, extending, and building custom templates
- Familiarity with or interest in Drupal
- Working knowledge of HTML, CSS and PHP
- An interest in participating in design reviews and critiques
- Adding and editing content for customers
- Installing, configuring, and customizing add-ons
- Developing and designing programming code (PHP), mostly for Joomla & Drupal
- Uploading and maintaining developed code – mostly Joomla/Drupal
- Identifying and resolving issues with websites
- Opportunities to work on and improve custom add-ons. Plethora Design has written a number of custom Joomla extensions that need regular maintenance.
- Database administration of MySQL (phpMyAdmin, plus some understanding of queries). This is not an absolute requirement, and we can teach you as needed.
- Javascript programming (jQuery, special effects, etc)
- Ability to work individually as well as on a team to meet deadlines. You will be guided as needed.
- Ability to multi-task; we have multiple projects at a time.
- Asp.Net, Linux Server Administration, Microsoft SQL Server and cPanel/WHM host experience a plus.

Experience, Education, and Certification Requirements:

- Work samples (portfolio, links, course work, etc)
- Work experience
- Associates or BS in computer or design-related field, or currently enrolled in such a program. Relevant experience may be substituted for degree. Your experience is more important to us than your degree.

Benefits

Compensation based on experience. Position will be on a contract basis, with possibility for long-term employment.

Please contact Casper Voogt at casper.voogt@plethoradesign.com for details, and send your resume and cover letter to him.
